

Plain Language Summary

Financial Assistance at Moffitt

Caring for patients who cannot afford to pay for quality cancer care is an important part of Moffitt's commitment to Florida's citizens. Part of its dedication to serving its patients is the provision of financial assistance to qualifying patients who are unable to pay for their care at Moffitt due to limited or no insurance coverage.

Applying for Help:

You can ask for help with your bill at any time before or while you are receiving care at Moffitt by contacting the Moffitt Cancer Center Business Office at 12902 Magnolia Drive, MCB-BO, Tampa, Florida 33612, calling 1-800-456-3434 ext. 8422, or calling the direct number at 813-745-8422.

After requesting financial assistance, you will be referred to one of Moffitt's financial counselors or patient service representative. At that time, you will learn about the financial assistance application process and the documentation you need to provide to assist Moffitt in making a decision about your eligibility for financial assistance.

Some of the documents that you might be asked to provide include information about your insurance coverage; employment status; proof of income; family size; proof of dependents; proof of identity; proof of residency; and net worth, which is determined by looking at all of the patient's property and items of value compared to the patient's bills.

Qualifying for Help:

After you apply for financial assistance, your Financial Assistance Application will be evaluated by Moffitt. In its evaluation, Moffitt will review all of the documents you provided to determine your financial situation. In general, Moffitt provides financial assistance to patients who are uninsured or underinsured and who have a household income or household assets that are valued at up to four times the federal poverty level. It is the intention of Moffitt to offer financial assistance to its most medically and financially needy patients.

After your Financial Assistance Application is evaluated, you will be contacted by a financial counselor or patient service representative to let you know whether you qualify for assistance and, if you qualify, what level of assistance you are eligible to receive.

List of Covered Providers:

If approved for financial assistance, the approval will include Moffitt hospital charges and physician bills from Moffitt Medical Group. USF Physician's Group will apply Moffitt's 100% financial assistance approval to their bills as well. All other levels of assistance with Moffitt will not be extended by USF Physician's Group.

Assistance Offered:

Medical bills can be reduced or completely forgiven for patients who qualify for financial assistance. In no event will a patient who qualifies for financial assistance be charged more than the amount generally billed to Moffitt's patients with insurance for other medically necessary care. The amount generally billed to Moffitt's patients with insurance is determined each year. Currently, this means that patients who qualify for financial assistance will not be required to pay more than 35% of their medical bills at Moffitt.

Where to Obtain Information:
