

IN THE NEXT ISSUE

The next issue of *Cancer Control* will focus on colorectal cancer. The topics and authors will include the following:

"The Role of Total Mesorectal Excision in the Management of Rectal Cancer," by Paul F. Ridgway, MB, MMedSc, AFRCSI, and Ara W. Darzi, MD, FRCS, FRCSEd, FACS

"Methods and Results of Sphincter-Preserving Surgery for Rectal Cancer," by Deborah A. McNamara, MD, FRCSEd, and Rolland Parc, MD, FRCS

"Optimizing Laparoscopic Resection and Staging of Colon Cancer Using Lymphatic Mapping and Sentinel Node Analysis," by Anton J. Bilchik, MD, PhD, FACS, and Steven Trocha, MD

"Treatment of Metastatic Colon Cancer: The New Millennium," by Anelisa K. Coutinho, MD, and Caio Max S. Rocha Lima, MD

"Current and Evolving Strategies for Colorectal Cancer Screening," by James Helm, MD, PhD, Junsung Choi, MD, Rebecca Sutphen, MD, James S. Barthel, MD, Terrance L. Albrecht, PhD, and Thomas N. Chirikos, PhD

The departments in *Cancer Control* will feature Book Review, Ten Best Readings Relating to Colorectal Cancer, Clinical Research Protocols for Colorectal Cancer, and Continuing Medical Education. Look for your issue in May 2003.

Cancer Control is accessible on the World Wide Web at <http://www.moffitt.usf.edu/ccjournal>. The CME questions also can be answered online.
